5. FIRE FIGHTING MEASURES:

5.1 Extinguishing media:

This product is not flammable

5.2 Combustion Hazards:

Polypropylene bottle may release noxious fumes (CO/CO₂) under combustion. Product may attack metals liberating hydrogen gas. Steam liberated on contact with water will produce noxious, irritating fumes.

5.3 Advice for fire-fighters:

Fire fighters should wear full protective clothing and self-contained breathing apparatus with support of chemical shower facilities for immediate wash down after contact.

6. ACCIDENTAL RELEASE MEASURES:

6.1 Personal protection:

Wear impermeable PVC overalls, aprons, rubber boots and supply respiratory protective equipment when there is a risk of noxious vapours due to high temperatures.

6.2 Environmental precautions:

Contain liquid and scrape up into a sealable container and then wash away fine residues with excess volumes of water ensuring complete and effective dilution.

6.3 Spill removal methods:

Scrape up and re-seal. Wash minor surface residues with water into general drains. Mark containers for disposal as special waste.

6.4 References to other sections:

See section 10 for disposal & Section 8 for exposure control

7.1 Safe handling precautions:

Use in well ventilated areas. Always avoid contact with skin & eyes and ensure nearby provision of shower and eye wash equipment in the event of accidental contact.

7.2 (a) Safe storage conditions:

Store in well-sealed, clearly marked containers. Keep out of reach of children in a cool, dry & well-ventilated environment preferably within a lockable metal cabinet. Avoid storage outdoors or where there is a risk of contact with moisture or excessive humidity.

7.2 (b) Incompatible materials:

Use only in accordance with instructions shown on the container and do not transfer contents to secondary containers made from zinc, tin or aluminium or any associated alloys. Avoid direct contact with strong acids.
