# TECHNICAL SPECIFICATION

## PALACE PREMIUM PARAFFIN – BS 2869 C1

### PRODUCT DESCRIPTION

Langlow Premium Paraffin is a clean burning, low sulphur, refined hydrocarbon fuel which burns in compliance with BS2869.C1 and may be used in all appliances recommended by traditional Paraffin heater & lamp manufacturers.

It is suitable for use in garden greenhouse structures and room heaters where a “smokeless” fuel meeting the requirements of BS2869.C1 is specified by the heater manufacturer.

Always read the manufacturer’s instructions before use prior to charging and activating the heater burner or lamp system.

### SPECIFICATIONS:

Property	Units	Minimum	Maximum	Actual	Test Method
Appearance	-	Clear & bright – free from visible particulates			Visual
Colour	-	-	-	Yellow	Visual
Density	kg/m <sup>3</sup>	-	0.820	0.78	DIN ISO 12185
Viscosity @ 40°C	cSt	-	2	1.3	ASTM D445
Initial B. Pt.	°C	-	-	195	ASTM D1078
Flash Point PMCC	°C	43	-	70	DIN ISO 2719
Sulphur Content	mg/kg	-	5	0	ASTM D4294
Aromatics	% v/v	-	-	0	ASTM D1319

### Additional information:

- CCCN Transport code ADR / DGSA - 2710 1985
- Consult the Premium Paraffin Material Safety Data sheet prior to use

### Date Issued:

28<sup>th</sup> November 2022
