SURFACE SANITISER

FAST ACTING PROTECTION AGAINST VIRAL & BACTERIAL CONTAMINATION

- PROTECTIVE AGAINST HARMFUL VIRUSES AND BACTERIA
- SPRAY APPLIED ALCOHOL BASED SURFACE BIOCIDES
- KILLS 99.9% OF GERMS AND SKIN CONTAMINANTS
- DE-ACTIVATES VIRAL & BACTERIAL SURFACE RESIDUES
- EFFECTIVE ON ALL HARD SURFACES, INCLUDING RAILS & WORKTOPS

PALACE SURFACE SANITISER SPRAY

An easy to apply alcohol based sanitising treatment, capable of eliminating 99.9% of viruses & bacteria on immediate contact.

SURFACE SANITISER SPRAY

Fast Acting Protective Agent

DESCRIPTION

PALACE SURFACE SANITISING SPRAY is an easy to apply alcohol based sanitising treatment, based on 70% ethanol and is an effective means of eliminating 99.9% of Viruses & Bacteria from most hard surfaces.

PALACE SURFACE SANITISING SPRAY is an ethanol-based composition based on world health organisation guidelines designed to be effective against harmful microbial contaminants and a wide range of viral and bacterial infections. The spray application allows for an even and wide area coverage with each application and coats hard surfaces with a high concentration of alcohol, sufficient to kill & de-activate viral & bacterial contaminants.

PALACE SURFACE SANITISING SPRAY acts as a secondary disinfectant agent for extra protection while eliminating the need of using wipes or towels to dry up hands after washing with water.

TO CLEAN & SANITISE FREQUENTLY USED HARD DOMESTIC SURFACES

Spray liberally an even coating of **PALACE SURFACE SANITISING SPRAY** across all hard surfaces where frequent hand contact is likely to have occurred and leave for 2 to 3 minutes before wiping away with a cloth lightly dampened with **PALACE SURFACE SANITISING SPRAY** which will dry and leave a contaminant free surface finish.

HEALTH AND SAFETY

Flammable liquid and vapour. Causes serious eye irritation. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **If eye irritation persists:** Get medical advice/ attention. Store in a well-ventilated place. Dispose of contents/container to an approved waste disposal plant. Keep cool.

A complete PALACE material safety data sheet is available on request or online at www.palacechemicals.co.uk

QUALITY AND ENVIRONMENT

All Palace Chemicals products are manufactured under a BSI accredited ISO 9001:2015 Quality Management System, along with an ISO 14001 Environmental Management system continually working to reduce our carbon footprint by developing products such as this which have a lower environmental impact.

TECHNICAL ADVISORY SERVICE

Should more specific technical information be required, contact the Palace Technical helpline on: **0151 486 6101**. For a Technical Specification and quantity requirements, visit our 'TilingSpecifier' on the Palace website at: <http://www.palacechemicals.co.uk>
