ALL PURPOSE TILE CLEANER

Marble & Calcareous Natural Stone Tile Cleaner

DESCRIPTION

PALACE ALL PURPOSE TILE CLEANER is suitable for use on all types of tiled surface including marble and calcareous natural stone which may be sensitive to more aggressive cleaners. Its PH neutral, acid-free formula is effective in removing fine cement film, lime scale and soap scum from tiled surfaces leaving a bright clean finish which resists the further build up of water-borne stains with regular use.

APPLICATION METHOD

Pre-wet the surface to be cleaned and dilute **PALACE ALL PURPOSE TILE CLEANER** at about 100ml per 1 litre of lukewarm water then mop or wipe evenly and regularly across the tiled surface using a cloth or abrasive pad depending on the degree of soiling. Allow the treatment to penetrate for about 5 minutes then rinse the surface thoroughly with plenty of warm water and dry off to give a bright, shiny finish. The surface must stay damp throughout treatment. Scrub thoroughly and rinse with clean water afterwards. It is recommended to use a water-suction cleaner after rinsing with water. Use a scrubbing pad if residues prove difficult to remove.

PROPERTIES

PALACE ALL PURPOSE TILE CLEANER is designed for use on any type of tiled surface and is particularly useful on tiles which are sensitive to more aggressive products such as **PALACE GROUT FILM REMOVER**. This product is a carefully selected blend of non-ionic surfactants and sequestering agents designed to lift dirt from the surface and leave a protective finish which inhibits the subsequent build up of soap scum and lime-scale.

COVERAGE

When diluted for use as recommended, this product will cover the tiled surface at a rate of about 3 to 4 square metres per litre of ready to use product.

STORAGE AND PACKAGING

PALACE ALL PURPOSE TILE CLEANER is supplied in 1 litre bottles packed 6 per case.

HEALTH AND SAFETY

PALACE ALL PURPOSE TILE CLEANER is a water-based concentrated solution which should be stored in a frost-free location.
Keep locked up and out of the reach of children.
If swallowed, seek medical advice immediately and show this container or label.

QUALITY AND ENVIRONMENT

All Palace Chemicals products are manufactured under a BSI accredited ISO 9001:2015 Quality Management System, along with an ISO 14001 Environmental Management system continually working to reduce our carbon footprint.
