HEAVY DUTY TILE CLEANER

Tile Aftercare

DESCRIPTION

PALACE HEAVY DUTY TILE CLEANER is a concentrated alkaline solution for removing heavily soiled and grime deposits from polished or unpolished stone & porcelain tiled surfaces. It penetrates surface pores and lifts accumulated dirt returning the tile to its original clean "as new" appearance.

APPLICATION METHOD

Regularly cleaned floors will require **PALACE HEAVY DUTY TILE CLEANER** to be used at a dilution rate at about 50ml per 5 litre of warm water, which is applied by scrubbing a brush/pad or mop over the tiled surface depending on the intensity of the floor grime. Accumulated and ingrained dirt on poorly maintained floors will require an initial clean using a stronger dilution of up to 500ml per 5 litres of warm / hot water and applied with a stiff brush or mildly abrasive synthetic fibre pad.

PROPERTIES

PALACE HEAVY DUTY TILE CLEANER is effective as a regularly used maintenance product in the removal of grime & dirt from lightly soiled tiled surfaces. It is also effective in recovering the appearance of ingrained heavily soiled surfaces when used at the higher recommended concentrations shown above. In circumstances where even the most concentrated treatment fails to achieve the desired result try using **PALACE GROUT FILM REMOVER**, but only on surfaces which have been pre-tested to ensure that the tile itself will not be damaged.

COVERAGE

On heavily soiled floors this product will be sufficient for up to 60 sq. Metres when diluted 1 to 10 with water. On regularly maintained floors when diluted at about 1 to 100 with warm water coverage will be 250 to 300 sq. Metres per litre of concentrated product.

STORAGE AND PACKAGING

PALACE HEAVY DUTY TILE CLEANER is supplied in 1 litre bottles packed 6 per case.

HEALTH AND SAFETY

Causes Skin irritation. Causes serious eye irritation. Wash hands & skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

IF SWALLOWED Rinse mouth

Do Not **INDUCE VOMITING**

IF ON SKIN (or hair) wash with plenty

of soap & water **IF IN EYES** Rinse

cautiously with water for several minutes

WARNING

Remove contact lenses, if present and easy to do. Continue rinsing. If skin & eye irritation persists, get medical advice/treatment. Take off contaminated clothing & wash before reuse.
