THE PROFESSIONALS' CHOICE

HIGH PERFORMANCE PRODUCTS FOR THE TILING & FLOORING INDUSTRY

DIY BROCHURE

BUILDING CHEMICALS / DECORATING PAINT REMOVAL PRODUCTS

All sales are subject to our Terms & Conditions, which are available either to view on our website or upon request.

SUNDRIES & CLEANERS

A comprehensive range of liquid based products, designed to aid surface preparation and clean-down. Primarily focused on removing unwanted dirt & bacteria from a multitude of surfaces and equipment.

Brush treatments are also available to help prolong the life of tools & brushes and also aid the removal of stains from textile based materials.

Ideal for either before or after any form of decorating & painting project is undertaken.

More Info:

Please scan the QR code for further product information.

SPIRITS & SOLVENTS

A complete array of fast acting & easy to use cleaners and fuels. The solvents are suitable for various purposes and situations including glass & hard surface cleaning for fast drying and smear free finishes. Grease & oil stain removal and thinning oil based paints.

The fuels offer clean and smokeless options for lamps, burners and fondues.

The range of solvents & fuels are available in different sizes to all projects.

More Info:

Please scan the QR code for further product information.

ADMIXTURES

Features a selection of products to help increase the workability, durability, water and frost resistance of concrete & building materials.

There are numerous options available, including a frost proofing mortar plasticiser, a cement based accelerator and bond enhancement for screeds, renders, waterproofing agents and adhesives.

More Info:

Please scan the QR code for further product information.

PAINT STRIPPERS

A dynamic range of products, suitable for any paint related problem. Designed to ensure a safe and highly effective solution when removing numerous layers of paint within various environments. Test kits are also available, which enables the user to specify the most suitable product for the task.

Products are directed towards both the household DIY'er and the professional (certification will be required for STRIP AWAY PRO).

More Info:

Please scan the QR code for further product information.

WALLPAPERING

Offers the decorator a variety of products to aid in the transformation of a living or workspace.

Traditional high strength adhesives are available, which come as either easy to use ready mixed pastes or powder flakes that mix with water to provide effortless glues to effortlessly hang all grades of wallpaper.

The range also includes a wallpaper stripper, allowing for a fresh start when redecorating the household.

More Info:

Please scan the QR code for further product information.

SEALANTS

Cartridge packed sealants & adhesives for use on a wide scope of surfaces and applications. Colour matched silicones are available to pair with grouts to form a high quality seal around stone & porcelain tiles, bathroom fittings, sanitary ware and door / window frames.

High strength bonds can also be achieved to fix gutters, roofs and building surfaces. Along with high grab adhesives & decorators caulk.

More Info:

Please scan the QR code for further product information.

TIMBERCARE

High quality timber treatments intended to fortify and protect all interior or exterior timber from the elements. Numerous shades of water repellent fence & shed stains are available, allowing gardens to shine with trendy & original solutions.

Linseed oils are also available to help preserve the features of exterior timber furniture, providing a rich sheen (or matt) finish depending on the number of layers used during application.

More Info:

Please scan the QR code for further product information.

BUILDING ADHESIVES

Includes a range of coatings & bonding agents, ensuring surfaces and materials are strongly bound & locked in position.

Bond most porous and semi-porous substrates to masonry & other materials such as wood, plaster, glass and more.

Cleaning agents are also available to keep moss & algae away from patios and other paved areas.

More Info:

Please scan the QR code for further product information.

FILLERS

Compounds and powders, available in a range of powder, ready mixed tubs and handy, built to complete all tasks within the household.

Ready mixed solutions are available for small scale interior repairs, whereas powder based compounds can also be used to deal with both interior and exterior situations.

All fillers are available in brilliant white and can be sanded or painted to the desired finish.
