

DECLARATION OF CONFORMITY FOR PRODUCTS WITH MODEL EPD'S

The compliance of this product to the Model EPD is checked on the basis of our formulations, by using an IBU-approved guideline procedure. We hereby declare that the product:

NX 2 – 12mm FLOOR LEVELLING COMPOUND

Complies with the European Model Environmental Product Declaration for Modified Mineral Mortars group 1 – EPD-DBC-2022017-IBF1-EN

Palace Chemicals Ltd is a member of the British Adhesives & Sealants Association (BASA) which in turn is a member of FEICA, the Association of the European Adhesive and Sealant Industry. FEICA has developed European Model EPDs for Modified Mineral Mortars, group 1.

These Model EPDs were verified by the independent institute IBU (Institut Bauen und Umwelt); Germany's EPD programme holder organization. The European Model EPDs have been published on the [FEICA website](#), and also on the websites of the IBU¹ and in future ECO (Platform of the European EPD Programme Operators) and can be downloaded there.

As a member of BASA, and with the help of an internal FEICA guidance, Palace Chemicals Ltd is entitled to determine the compatibility of its product with the European Model EPD.

By means of this declaration, we confirm that **NX 2-12mm Self Levelling flooring compound** is covered by the European Model EPD for Modified Mineral Mortars, group 1 according to the guidance developed for this purpose. This means that the Life Cycle Assessment data and the other content of the attached Model EPD applies to the above product and can be used for sustainability assessment of the construction products and construction projects, in which they are used.

Jim Percival – Technical Director

Palace Chemicals Ltd
